

MUHAMMAD HASHIR

Cloud Native Full-Stack Developer

+92 320 928 8500 • hashirn77@gmail.com • linkedin.com/in/muhammad-hashir-9b7a162a5 • github.com/Mhashir05 • Karachi, Pakistan

PROFILE

Software Engineering graduate and cloud-native full-stack developer. I designed , build and deploy end-to-end — Next.js/TypeScript on the front-end , Node.js/Python on the back-end , shipped to AWS on Linux with Docker and CI/CD. A live e-commerce store (Lux Resin Impression) and a National Investment Trust landing page. My SQA and IT-audit experience adds a security-first, quality-first edge to everything I ship. Open to junior Full-Stack, Cloud, or DevOps roles.

EXPERIENCE

Bank Alfalah — Technology Audit Intern

Aug 2025 – Oct 2025

Karachi, Pakistan

- Reviewed IT systems and internal controls across multiple departments to identify compliance gaps and security risks.
- Assisted in system access reviews and prepared structured audit reports aligned with IT governance frameworks.
- Gained practical exposure to cybersecurity risk assessment, IT governance, and technology risk documentation.

Code Alpha — Web Development Intern

Aug 2024 – NOV 2024

Remote

- Built an interactive Age Calculator web app using HTML, CSS, and JavaScript with accurate edge-case date logic.
- Practiced component structuring, cross-browser testing, and responsive UI design principles.
- Gained hands-on experience in structured coding, debugging, and front-end development workflows.

EDUCATION

- Sir Syed University of Engineering and Technology (SSUET)** 2022 – 2026
- Bachelor of Science in Software Engineering*
- Govt Degree College, SRE Majeed** 2020 – 2022
- Pre-Engineering | Grade: A*

PROJECTS

Lux Resin — E-Commerce Catalogue Platform (lux-resin-impression.vercel.app) | Next.js 14 · TypeScript · Tailwind · PostgreSQL · Prisma · Next-Auth

· Docker · AWS EC2 · NGINX · GitHub Actions

- Building a production e-commerce catalogue platform for a home based jewellery and resin-art business, featuring an admin panel, product management.
- Implemented authentication with Next-Auth, media handling via Cloudinary, and a type-safe data layer using Prisma and PostgreSQL.
- Containerized the app with Docker and deployed on AWS EC2 behind NGINX, with automated CI/CD pipelines via GitHub Actions.

NIT-MMF Landing Page — National Investment Trust | Next.js · Tailwind CSS · Vercel

- Developed a conversion-focused marketing landing page for the NIT Money Market Fund, a product of National Investment Trust (Pakistan's first asset management company).
- Built a responsive, single-page experience with hero, product-comparison, multi-step onboarding, and FAQ sections, including SECP regulatory disclosures.
- Deployed on Vercel with anchor-based navigation and a mobile-first layout.

EventBridge AI — Final Year Project (eventbridgeai.com) | Laravel · PHP · Python · Django · MySQL · Qdrant · LangChain

- Developed an AI-powered centralized platform for discovering and managing community-led events across Karachi (GDSC, IEEE, ACM).
- Integrated semantic search and an AI recommendation engine using LangChain, vector embeddings (Qdrant), and content-based filtering.
- Led SQA planning, test-case design (unit, integration, system-level), and full project documentation.

AI Vehicle Classification System | Python · Machine Learning

- Created an AI-based system to classify vehicles using machine-learning and image-processing techniques.

SKILLS

Frontend: React.js · Next.js · TypeScript · HTML5 · CSS3 · JavaScript · Tailwind CSS · Bootstrap · Responsive Design

Backend / DB: Node.js · Prisma · PostgreSQL · MySQL · Firebase · MongoDB · SQL Server · REST APIs

Testing / SQA: Manual Testing · Selenium · JIRA · Test Case Writing · Unit Testing · Bug Reporting

AI / Python: Python · LangChain · Vector DB (Qdrant) · Embeddings · Django (basic)

Cloud / DevOps: Docker · Kubernetes (basics) · OpenStack · AWS (EC2) · NGINX · CI/CD (GitHub Actions) · Linux · VM Deployment

Cybersecurity: Ethical Hacking (fundamentals) · IT Governance · IT Risk Assessment · E-Audit · Audit Documentation

Languages: JavaScript · TypeScript · Python · Java · PHP · HTML · CSS

Tools: Git · GitHub · VS Code · MS Office (Excel, Word, PowerPoint)

CERTIFICATIONS

Cloud Computing — NED UET (PITP) • Web Development — Saylani (SMIT) • Office Automation — Aptech
